

# WORK LIKE A PRO.

Mono and multi-tools for swift and accurate cable processing for the best value. Guaranteed.

## VITOLON SELECTED TOOLS.

By experts, for experts.

We specialise in cordless mechanical and cordless hydraulic VITOLON tools for cutting and crimping power cables and overhead lines, in addition to punching and cutting bolts. Drawing on decades of experience, we develop and sell powerful, durable, and economical mono and multi-tools for the professional sector. Our equipment helps to make cable assembly within the European energy supply sector easier, safer, and quicker.

## A TOOL FOR EVERY TASK.

Engineered to meet your needs.

### Battery-powered mechanical cutters

Compact, versatile tools (ratchet cutters) for cutting Cu/Al cables up to Ø 63 mm or overhead power lines (Aldrey/ACSR) up to Ø 20,3 mm.

- For challenging applications
- Light, ergonomic, durable
- Safe in operation
- Delivers maximum efficiency

### Battery-powered hydraulic crimpers

High-performance crimping tools, ergonomically designed for DIN-standard applications up to 300 mm² and non-standard applications up to 400 mm².

- High-pressure performance
- Manual and auto-release function
- Well-balanced design
- Effortless operation

### Battery-powered hydraulic cutters

High-power tools in an inline or pistol-grip form for cutting copper/aluminium cables (also armoured or lead-sheathed) up to Ø 80 mm, or overhead lines (Aldrey/ACSR) up to Ø 46 mm.

- Perfect for use in tight spaces
- Accurate, clean cuts
- Cutting processes that conform to standards
- Prevents crushing and material displacement

### Battery-powered hydraulic multi-tools

Multi-tools featuring interchangeable heads for cutting, crimping, punching, and bolt cutting applications. Capable of cutting cables up to Ø 49 mm, bolts up to Ø 10 mm (solid material), and crimping cable connectors up to 300 mm².

- Tool-less system for swapping heads
- Quick changes between various applications
- Accurate completion of all jobs
- Saves money by replacing multiple separate tools

# PERFECT FOR (ALMOST) EVERYTHING.

Solutions for cutting, crimping, punching, and more.

### VERSATILE

Multi-functional tool for a wide range of applications, featuring a quick-change head system for cutting, crimping, punching, and bolt cutting.

### USER-FRIENDLY

Compact, ergonomic and lightweight – designed for effortless handling, even in confined areas and overhead use.

### DURABLE

Crimping tools can achieve up to 60,000 cycles.

### HIGH-PERFORMANCE

Supplied with Makita battery platforms – the global leader in fast-charging technology. Standard power: 18 V / 3.0 to 5.0 Ah.

### 4-IN-1 MULTI-TOOL

Quick-change heads for multiple functions – faster work, no tool changes needed.

# THINK FORWARD – ACT PREPARED.

## Multi-product shop for tools and accessories.

VITOLON tools can be ordered from the Selected Tools Shop – and more products for maritime and other applications will be soon available.

With just a few filter options, the perfectly suited product for any requirement can be found, ordered, paid for, and delivered at record speed – within up to five days for in-stock items

- Easy quoting: precise delivery date, automated price adjustments
- Custom conditions: automatic tiered discounts and attractive bulk pricing
- Flexible payment options: matching the established procurement process
- Complete transparency: access order status, history, and personal recommendations whenever you want
